

argus ODISHA **HEALTH** CONNECT SEASON 3

9th November 2024 | Bhubaneswar

Precision, Prevention and Progress - The Path to better Healthcare

Indian Healthcare

The Backdrop

India's healthcare system is among the fastest growing sectors having benefited from government policies to make the country a global hub for health and wellness. The traditional journey of

healthcare ecosystem across pharmacies, doctors (for consultation), and diagnostic centers has witnessed an unparalleled change. Factors like automation, digitization, and tech-enablement have revolutionized the way one perceives healthcare and expects services. Today, there is an increased call for self-reliance in the Indian healthcare system with focus shifting to innovation and research, drug and equipment manufacturing, digital transformation in health services, fair access to healthcare solutions, mental health, and wellness. Health Insurance is an emerging concept and is being actively promoted across the country.

HEALTHCARE IN ODISHA - THE CANVAS

Over the years, Odisha has successfully responded to the growing healthcare needs with a clear health policy and well laid out infrastructural arrangements. In recent times, a number of initiatives of the health department of Odisha, have triggered a rise in the quality of health services in Odisha. The efforts of the department has resulted in a positive growth in the sector.

Odisha has the potential to attract tourists for its beaches, ancient temples and monuments, picturesque hills and waterbodies, and can promote medical and wellness tourism in a big way. To boost medical tourism, the need is to promote an integrated infrastructure including hospitals, and hostels in urban areas.

There is a lot of scope for improvement and advancement in the healthcare eco-system and manpower in Odisha.

ARGUS HEALTH CONNECT SEASON 3

At the forefront of shaping the future of healthcare.

Argus is hosting a one-day Conclave which is designed to foster innovation and drive meaningful exchange in the healthcare landscape in Odisha. The intent is to inspire actionable insights and forge partnerships that will lead to a healthier, more resilient future for all. Argus Health Connect Season 3 is a platform that is aimed at collaboration, knowledge sharing, and exchange of ideas towards transforming healthcare for the future. **9 November 2024 [Saturday]**
